S4348-1

Uniform Crime Report State of Mississippi

ANNUAL REPORT
January - December 1982

Compiled by
Criminal Justice Planning
Uniform Crime Reporting Division
Jackson, Mississippi

This report was published through financial assistance provided by the Bureau of Justice Statistics, U.S. Department of Justice. Points of view or opinions stated in this report do not necessarily represent the official position or policies of the U.S. Department of Justice.

FOREWORD

The Mississippi Uniform Crime Reporting Program has been made possible by a Grant Award from the Bureau of Justice Statistics through the Governor's Office of Criminal Justice Planning.

This report has been prepared so as to provide reliable and comprehensive data to the criminal justice community. The graphic and statistical representation of the various crime factors should prove of assistance to law enforcement personnel in planning programs to combat criminal activity throughout Mississippi.

Crime in Mississippi for 1982 was compiled from data submitted monthly by sheriff and police departments throughout the state. Their excellent cooperation is gratefully acknowledged.

INTRODUCTION

The Uniform Crime Reporting Program of the Federal Bureau of Investigation provides a nationwide view of crime based on the submission of crime statistics by city, county, and state law enforcement agencies throughout the country. Congress authorized the Federal Bureau of Investigation to serve as the national clearinghouse for statistical information on crime. Uniform Crime statistics were first collected in 1930 through the cooperation of the International Association of Chiefs of Police, and later the National Sheriff's Association.

In 1980 a statewide Program patterned after the federally administered UCR program was begun by the Governor's Office of Criminal Justice Planning. This state statistical program has provided the advantage of increased coverage of law enforcement agencies, as well as providing direct service in assuring the completeness and quality of information provided.

The fundamental objective of the Mississippi Uniform Crime Reporting Program is to produce a reliable set of criminal statistics for use in law enforcement administration, operation, and management. This compiled data is also intended for the use and information of state and local officials, as well as the general public and other professionals who have an interest in the crime problem.

SUMMARY OF CRIME IN MISSISSIPPI, 1982

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II offenses. Offense and arrest information is reported for the Part I offenses on a monthly basis, whereas only arrest information is reported for Part II offenses. The following crime classifications are considered Part I offenses (or index crimes) because of their seriousness and frequency of occurrence:

Violent Crimes

(1) Murder
(2) Rape
(3) Robbery
(4) Aggravated Assault

Property Crimes

(5) Burglary
(6) Larceny Theft
(7) Motor Vehicle Theft

Arson has been added as the eighth index crime, however, due to questions of validity of data, arson is not analyzed in this report.

When more than one Part I offense occurs at the same time by a person or group of persons the Hierarchy Rule is used requiring only the highest offense on the list to be counted and ignoring all others. Another rule for reporting UCR data is scoring the number of crimes by the following procedures:

(1) One offense is scored for each victim for incidents of crimes against persons (murder, rape, and assault).

(2) One offense is scored for each distinct operation for incidents of crimes against property (robbery, burglary, and larceny theft). Motor vehicle theft is an exception to this rule counting one offense for each vehicle stolen.

The use of standardized definitions and classification and scoring procedures provide for uniform reporting throughout the fifty states, allowing for a national picture of crime and comparison between contributors. This standardization was necessary to overcome the variations in definitions of criminal offenses in the states and localities. Reporting agencies are required to interpret local criminal acts and law violations in the context of UCR definitions prior to submission of their monthly reports.

In order to provide a better overview of crime in Mississippi the following report focuses on those 98 agencies that reported for all twelve months of 1982. The FBI provides estimates for the whole state. These estimates were used for examining trends for the state as a whole, however, for monthly analysis by crime classification only the 98 complete agencies were used.

ANALYSIS OF INDEX CRIMES

ANALYSIS OF INDEX CRIMES

In 1982 98 agencies reported for all twelve months. Table I shows the breakdown both by number of cases and percentage. As you can see, for these agencies burglaries and larcenies account for over 87% of reported offenses.

Since 1973 Mississippi has experienced an increase in its Part I offenses. The total number of index crimes reported in 1982 rose 1.83% from 1981. Examining the violent and property offenses shows a reduction of 2.48% for violent crimes and an increase of 2.24% for property crimes over 1981.

In the following section there will be presented individual analysis by crime classification of the Part I offenses. Trends for the state as a whole since 1973 and for the months of 1982 for the 98 complete agencies are provided in order to give a better understanding of Mississippi's crime picture.

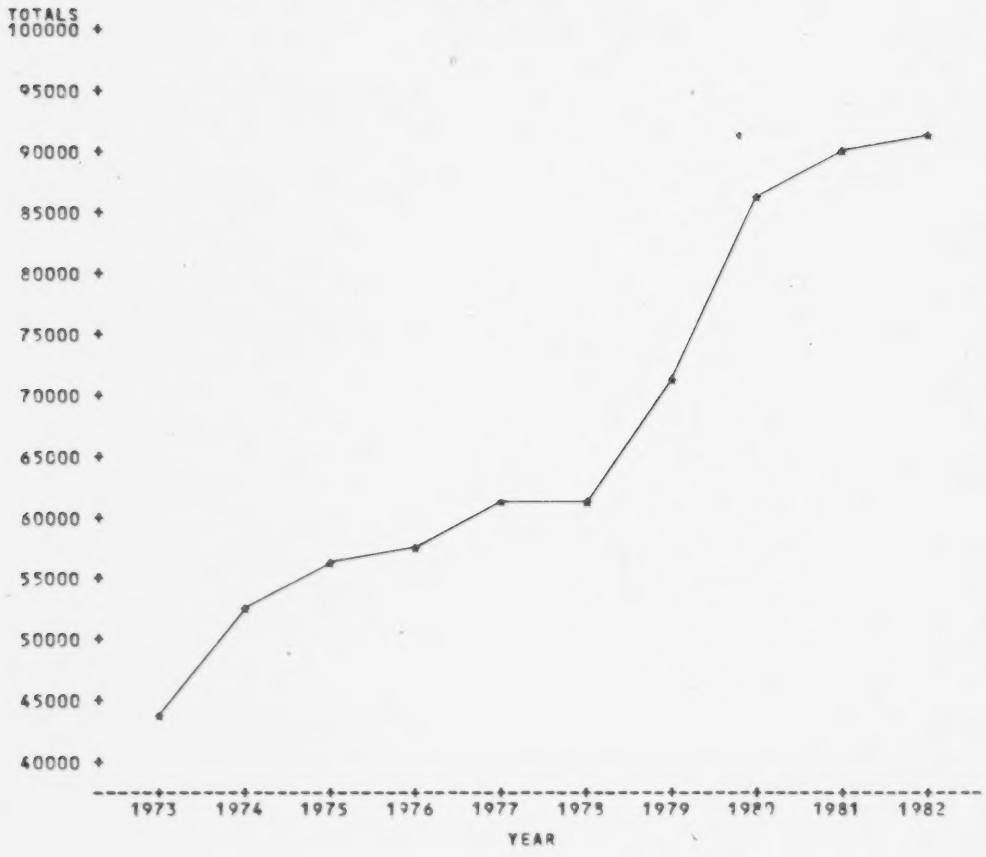
TOTAL PART I CRIME INDEX
1973-1982



VIOLENT CRIMES:

Violent crimes involve the element of personal confrontation between the perpetrator and the victim. The violent crime index is made up of murder, rape, robbery, and aggravated assault. Violent crimes, even though serious in nature and having a major impact on the victim and the victim's family, only accounted for 8.25% of Mississippi's reported crimes for 1982.

An estimated 7,515 violent crimes were reported in Mississippi for 1982 representing a 2.48% decrease from 1981. Aggravated assaults and robberies accounted for 86.25% of the total violent offenses. A review of the distribution of the violent crimes discloses that murder accounted for .39%, rape .74%, robbery 2.04%, and aggravated assault 5.07%.

Since 1973 violent offenses have shown a sporatic trend with peaks occurring in both 1974 and 1980. In order to better understand violent crime in Mississippi a brief analysis is provided for murder, rape, robbery, and aggravated assault.

PROPERTY CRIMES:

Property crimes, comprised of burglary, larceny, and motor vehicle theft, accounted for 91.75% of Mississippi's reported crime for 1982. The number of property crimes has risen every year since 1973 except for a slight drop in 1978. Between 1973 and 1982 an average of 9.86% increase has occurred in the number of property crimes.

In 1982, 83,622 property crimes were reported representing an increase of 2.24% over 1981. Burglary accounted for 33.14% of the Part I offenses and 36.11% of all property offenses. Larceny theft accounted for 54.32% of the Part I offenses and 59.20% of all property offenses. Motor vehicle theft made up 4.30% of the total crime index and 4.69% of all property offenses.

Murder and Nonnegligent Manslaughter:

The willful (nonnegligent) killing of one human being by another. The classification of this offense, as for all other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Deaths caused by negligence, suicide, or accident are not included in the count for this classification. The killings of felons by private citizens or by police officers in the line of duty are considered justifiable homicides by UCR and are excluded from this count. Attempts to murder are scored as aggravated assaults.

The estimated number of murders for 1982 was 358, an increase of 12.23% over 1981. Examining the trend since 1973 reveals the number of murders fluctuates with the average number being 328.

For the 98 agencies reporting for 12 months in 1982, the month of March had the highest number of murders (25) with the lowest number occurring in February (9). Percentage breakdowns are shown for Murder by Type of Weapon Used, Murder Victims by Age, Sex, and Race, Murder Victims by Relationships, and Murder by Circumstances.

FORCIBLE RAPE:

The carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) and other sex offenses are not included in this category.

The number of reported rapes in Mississippi has increased significantly since 1976 with an average increase of 10.15%. An estimated 675 rapes occurred in Mississippi during 1982 which was a 2.58% increase over 1981. Rape offenses accounted for .74% of the Part I offenses for 1982 and 8.98% of the violent crimes.

The monthly trend for the 98 complete agencies shows peaks in May and August with 55 rapes per month with November having the lowest number of forcible rapes reported.

ROBBERY:

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

The estimated number of robberies in Mississippi for 1982 was 1,863 which was a 9.52% decrease from 1981.

In examining the monthly trend for the 98 agencies reporting 12 months for 1982, peaks occurred in January and December. These agencies reported an estimated $1,013,613 value of property stolen by robbery with an average loss of $646 per incident. The greatest number of robberies reported for these agencies in 1982 were perpetrated on the streets or highways with the average loss for this type robbery being $335. Bank robberies registered the highest average loss, $7,342, but only comprised 2% of these robberies.

AGGRAVATED ASSAULTS:

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a weapon is used which could and probably would result in serious personal injury if the crime were successfully completed. Attacks using personal weapons (part of the attacker's body) must result in serious injury to be classified as aggravated assault. Simple assaults are excluded from this count.

An estimated 4,619 aggravated assaults occurred in Mississippi in 1982. This figure represents 5.07% of the Crime Index total and 61.46% of the violent crimes.

The monthly trend for the 98 agencies reporting 12 months in 1982 showed that May had the highest number of assaults reported (281) with February and November having the fewest number (201 and 202 respectively). A breakdown of these aggravated assaults by type of weapon used reveals that 28.44% of these assaults involved a firearm, 29.35% involved a knife of cutting instrument, 18.18% involved some other type of dangerous weapon, and 24.03% involved hands, fists, feet, etc. Simple assaults (non-aggravated) numbered 7,091 or 71.14% of all assaults (simple and aggravated).

BURGLARY:

The unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary. Burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

During 1982 the estimated number of burglaries in Mississippi was 30,200, an increase of 1.98% over 1981. Since 1973 the number of burglaries has increased at an average rate of 8.47%. Burglary accounted for 33.14% of the Part I offenses for 1982.

In examining the trend for the 98 agencies who reporting 12 months in 1982, the number of burglaries was greatest in January (2,081) with the lowest number in April (1,522). 57.21% of all burglaries were residential burglaries with an average value of property stolen per incident of $757. The 42.79% non-residential burglaries had an average value of property stolen per incident of $3,246.

LARCENY THEFT:

The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. This includes crimes such as shoplifting, purse snatching, pocket picking, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc. This crime category does not include embezzlement, "con" games, forgery, or worthless checks. Motor vehicle theft if excluded from this category in as much as it is a separate Part I offense.

The estimated number of larceny thefts in Mississippi for 1982 was 49,504. This reflected a 4.03% increase over 1981. Since 1973 larceny theft has increased at an average rate of 10.84%. Larceny theft accounted for 54.32% of the Part I offenses in 1982 and 59.20% of all property crimes.

In examining the agencies reporting 12 months for 1982, we find the incidence of larceny was greatest during the summer months. In 1982 the average value of property stolen by larceny theft was $342 per incident.

MOTOR VEHICLE THEFT:

The theft or attempted theft of a motor vehicle. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

UCR defines a motor vehicle as a self-propelled vehicle that runs on the ground and not on rails. Examples include automobiles, trucks, buses, motorcycles, mopeds, snowmobiles, etc. Thefts of farm and/or construction equipment, boats, and airplanes are not included in this category but are counted as larcenies.

During 1982 there were an estimated 3,918 motor vehicle thefts in Mississippi representing a 14.60% decrease from 1981. Motor vehicle theft accounted for 4.30% of all the index crimes for 1982.

Monthly figures for the 98 complete agencies for 1982 reveal the highest number of motor vehicle thefts (275) in July and the lowest number (205) in December. These agencies reported the 62.75% of the motor vehicle thefts were automobiles, 18.75% were trucks and buses, and 18.51% were other vehicles. 58.03% of these stolen vehicles were reported recovered.
